TruHearing® is an independent company offering exclusive hearing aid savings for Blue Cross and Blue Shield of Alabama members.

Out-of-network/non-contracted providers are under no obligation to treat Plan members, except in emergency situations. Please call our member service number or see your *Evidence of Coverage (EOC)* for more information, including the cost-sharing that applies to out-of-network services.

Worldwide Emergency/Urgent Coverage refers to coverage of services outside the United States and its territories. Under this benefit, enrollees may obtain only services that would be classified as emergency and urgently needed services had they been covered in the United States. Members utilizing this benefit may remain enrolled in this plan while temporarily outside the United States or its territories for up to six months. This coverage also includes ambulance services worldwide. In-network copays will apply for each covered worldwide emergency/urgent service received.

Provider Listing by County and Specialty 4

Section 1 – Introduction

This directory provides a list of **Blue Advantage's** network providers.

The network providers listed in this directory have agreed to provide you with your health care, vision and dental services. You may go to any of our network providers listed in this directory.

This directory includes footnotes indicating providers that are not accepting new patients, providers that are Americans with Disabilities Act (ADA) compliant, and each provider's cultural and linguistic capabilities, including languages (including American Sign Language) offered by the provider or a skilled medical interpreter at the provider's office.

For In-Network Routine Hearing Exam and Hearing Aids services, you must use a TruHearing provider. Please call 1-844-255-7140 (TTY 711) to locate a TruHearing provider and to schedule an appointment.

As a member of our plan, your in-network provider, including your primary care and behavioral health providers, must have practices in place and make reasonable efforts to make sure:

- Your routine and preventive care appointments are made within 30 business days.
- You are seen by a clinician within a reasonable amount of time from your scheduled appointment.
- Your urgently needed services or emergencies are provided immediately.
- The services that are not emergency or urgently needed, but require medical attention, are scheduled within 7 business days.

How to get care from out-of-network providers

As a member of our plan, you can choose to receive care from out-of-network providers. However, providers that do not contract with us are under no obligation to treat you, except in emergency situations. Our plan will cover services from either network or out-of-network providers, as long as the services are covered benefits and are medically necessary. However, **if you use an out-of-network provider, your share of the costs for your covered services may be higher.** Here are more important things to know about using out-of-network providers:

- You can get your care from an out-of-network provider; however, in most cases that provider must be eligible to participate in Medicare. Except for emergency care, we cannot pay a provider who is not eligible to participate in Medicare. If you get care from a provider who is not eligible to participate in Medicare, you will be responsible for the full cost of the services you get. Check with your provider before getting services to confirm that they are eligible to participate in Medicare.
- You don't need a referral or prior authorization when you get care from out-of-network providers. However, before getting services from out-of-network providers, ask for a pre-visit coverage decision to confirm that the services you get are covered and are medically necessary (See your Evidence of Coverage for information about asking for coverage decisions). This is important because:
    - Without a pre-visit coverage decision, and if our plan later determines that the services are

not covered or were not medically necessary, our plan may deny coverage and you will be responsible for the entire cost. If we say we will not cover the services you got, you have the right to appeal our decision not to cover your care. See your Evidence of Coverage for information on your appeal rights.

- It is best to ask an out-of-network provider to bill our plan first. But, if you have already paid for the covered services, we will reimburse you for our share of the cost for covered services. Or if an out-of-network provider sends you a bill you think we should pay, you can send it to us for payment. See your Evidence of Coverage for information about what to do if you receive a bill or if you need to ask for reimbursement.
- If you are using an out-of-network provider for emergency care, urgently needed services, or out-of-area dialysis, you may not have to pay a higher cost-sharing amount. See your Evidence of Coverage for more information about these situations.

When you got medical care from a provider who is not in our plan's network

When you got care from a provider who is not part of our network, you are only responsible for paying your share of the cost. (Your share of the cost may be higher for an out-of-network provider than for a network provider.) Ask the provider to bill our plan for our share of the cost.

- Emergency providers are legally required to provide emergency care. You are only responsible for paying your share of the cost for emergency or urgently needed services. If you pay the entire amount yourself at the time you get the care, ask us to pay you back for our share of the cost. Send us the bill, along with documentation of any payments you made.
- You may get a bill from the provider asking for payment you think you do not owe. Send us this bill, along with documentation of any payments you have already made.
    - If the provider is owed anything, we will pay the provider directly.
    - If you have already paid more than your share of the cost of the service, we will determine how much you owed and pay you back for our share of the cost.
- While you can get your care from an out-of-network provider, the provider must be eligible to participate in Medicare. Except for emergency care, we cannot pay a provider who is not eligible to participate in Medicare. If the provider is not eligible to participate in Medicare, you will be responsible for the full cost of the services you get.

When you need out-of-area coverage, urgently needed care or have a medical emergency

- ### What is "out-of-area coverage"?

  "Out-of-area coverage" is when you receive covered services that are medically necessary outside of our plan's service area. **If you use an out-of-network provider for these services, your share of the costs for your covered services may be higher.**

- ### What is "urgently needed care"?

  A service that requires immediate medical attention (but isn't an emergency) is an urgently

needed service if you're either temporarily outside our plan's service area, or if it's unreasonable given your time, place, and circumstances to get this service from network providers. Examples of urgently needed services are unforeseen medical illnesses and injuries, or unexpected flare-ups of existing conditions. However, medically necessary routine provider visits, such as annual checkups, aren't considered urgently needed even if you're outside our plan's service area or our plan network is temporarily unavailable.

- **What if you are in the plan's service area when you have an urgent need for care?**

  In most situations, if you are in the plan's service area and you use an out-of-network provider, you will pay a higher share of the costs for your care. However, if the circumstances are unusual or extraordinary, and network providers are temporarily unavailable or inaccessible, we will allow you to get covered services from an out-of-network provider at the lower, in-network, cost-sharing amount.

- **What if you are <u>outside</u> the plan's service area when you have an urgent need for care?**

  When you are outside the service area and cannot get care from a network provider, our plan will cover urgently needed care that you get from any provider at the lower, in-network, cost-sharing amount.

- **What is a "medical emergency" and what should you do if you have one?**

  A **medical emergency** is when you, or any other prudent layperson with an average knowledge of health and medicine, believe that you have medical symptoms that require immediate medical attention to prevent loss of life (and, if you are a pregnant woman, loss of an unborn child), loss of a limb or function of a limb, or loss of or serious impairment to a bodily function. The medical symptoms may be an illness, injury, severe pain or a medical condition that is quickly getting worse.

If you have a medical emergency:

- **Get help as quickly as possible.** Call 911 for help or go to the nearest emergency room or hospital. Call for an ambulance if you need it. You do *not* need to get approval or a referral first from your primary care physician. You do not need to use a network doctor. You can get covered emergency medical care whenever you need it, anywhere in the United States or its territories, and from any provider with an appropriate state license even if they're not part of our network.
- **As soon as possible, make sure our plan has been told about your emergency.** We need to follow up on your emergency care. You, or someone else, should call to tell us about your emergency care, usually within 48 hours. **Blue Advantage (PPO)**/Health and Clinical Engagement needs to know about your emergency because we will provide follow-up care. Please call the number on the back of your Member ID Card.

What is covered if you have a medical emergency?

Our plan covers ambulance services in situations where getting to the emergency room in any other

way could endanger your health. We also cover medical services during the emergency.

The doctors giving you emergency care will decide when your condition is stable and when the medical emergency is over.

After the emergency is over, you are entitled to follow-up care to be sure your condition continues to be stable. Your doctors will continue to treat you until your doctors contact us and make plans for additional care. Your follow-up care will be covered by our plan. If you get your follow-up care from out-of-network providers, you will pay the higher out-of-network cost-sharing. For more information, see your *Evidence of Coverage*.

Our plan covers worldwide emergency and urgent care services outside of the United States under the following circumstances:

- Urgently needed services (services you require in order to avoid the likely onset of an emergency medical condition)
- Emergency care (treatment needed immediately because any delay would mean risk of permanent damage to your health)
- Emergency transportation (transportation needed immediately because a delay would mean risk of permanent damage to your health)

What if it wasn't a medical emergency?

Sometimes it can be hard to know if you have a medical emergency. For example, you might go in for emergency care–thinking that your health is in serious danger–and the doctor may say that it wasn't a medical emergency after all. If it turns out that it was not an emergency, as long as you reasonably thought your health was in serious danger, we will cover your care.

However, after the doctor says that it was *not* an emergency, the amount of cost-sharing that you pay will depend on whether you get the care from in-network providers or out-of-network providers. If you get the care from in-network providers, your share of the costs will usually be lower than if you get the care from out-of-network providers. With the exception of emergencies or urgent care, it may cost more to get care from out-of-network providers. As a member of our plan, you can choose to receive care from out-of-network providers. Our plan will cover services from either in-network or out-of-network providers, as long as the services are covered benefits and are medically necessary. **However, if you use an out-of-network provider, your share of the costs for your covered services may be higher.**
